

Maharishi's Vedic Pandit World Peace Project

by PETER WARBURTON

In recent weeks an urgent appeal has been sent to Governors, Sidhas and Meditators in Britain and all around the world requesting support for the establishment of three groups of 8,000 Vedic Pandits who will use Maharishi's profound Vedic technologies to create and maintain world peace.

This appeal has gained added impetus with the strong warning delivered by Maharishi that the bombing tendency of the new American administration, supported by the UK and other NATO countries, may engulf the whole world in bombing. The only way Maharishi sees to stop this tendency, and other dangers threatening the world, is to establish three groups of 8,000 Vedic Pandits in India within the next two to three months.

The initial responses to the appeal are very encouraging. The collective support and generosity of Maharishi's family of the Enlightened throughout the world is rapidly facilitating the establishment of the groups of 8,000 Vedic Pandits in Veda Bhumi Bharat—India, the Land of the Veda—creating a brighter future for the whole human race.

Maharishi's Vedic Peace Performance: Group Transcendental Meditation and Yogic Flying, and Ati Rudrabhishek Maha Yagya

These groups of 8,000 Vedic Pandits will practise Transcendental Meditation and Yogic Flying to create coherence in world consciousness. They will also perform the most powerful Yagya for creating peace—Ati Rudrabhishek Maha Yagya. This Yagya awakens the eternal peace of the Unified Field (Atma) in life on our planet.

▲ His Excellency Dr Girish Varma, Minister of Higher Education in Maharishi's Global Country of World Peace, who has been given the strongest possible charge by Maharishi to establish the groups of 8,000 Vedic Pandits in India as soon as possible.

► Facilities for the Vedic Pandits will be constructed according to the principles of Vastu Vidya—Maharishi Sthapatya Veda—architecture in perfect harmony with Natural Law. These perfect Vastu buildings will create a purely positive and evolutionary influence for the Pandits, promoting the power of their performance of Maharishi's Vedic peace technologies.

► Facilities for 8,000 Vedic Pandits are already more than half completed at a 3,000-acre site near Pune in western India. The photograph shows some of the residences for the Pandits.

▲ The groups of 8,000 Vedic Pandits will practise Transcendental Meditation and Yogic Flying together and perform Ati Rudrabhishek Maha Yagya—the special Vedic peace performance by 1,331 Vedic Pandits, which was performed by the kings of Vedic times when there was no suffering, conflict or problems, and life was lived in abundance, peace and bliss. When all three groups are established, there will be at least 18 Ati Rudrabhishek Maha Yagyas performed daily—something unprecedented in thousands of years.

The time for prevention

History shows that wars break out and spread with lightning speed often without any apparent logic. Therefore, the call of time, Maharishi says, is to avert the danger before it arises, as expressed in the phrase Heyam Duhkham Anagatam from the Yoga Sutras 2.16. It could be said, Maharishi adds, that we should have done this long ago, but the past is the past. Now, we have to take care of our future, and make a world of Unity Consciousness, a Global Country of World Peace.

The means to achieve this are available in the Vedic Technologies of Peace that Maharishi has brought to us from his master, Guru Dev, His Divinity Brahmanand Saraswati. The effectiveness of this technology is supported by both scientific principles and research.

Benefits of supporting the project

One important point in this context is that when the enlightened of any nation give financial support to the large groups of Vedic Pandits in India, this act in itself becomes a massive national Yajna for the nation from which the contributions come. The nation's fortune is improved, the negative tendencies of the nation are reversed, and some of the negative consequences of the past mistakes of the government are counteracted.

Of course, the group practice of Yogic Flying by the Purusha and Mother Divine groups, and at all the Maharishi Vedic Centres, is also essential to create these positive effects. However, giving support for the groups in India, with their daily performance of Ati Rudrabhishek Maha Yagyas and Global Maharishi Effect Group Flying, will return a powerful benefit to all the citizens of the nation and region, as well as the whole world. ■

Residences for a group of 121 Vedic Pandits at the Brahmasthan of India (the geographical centre of the country). At the site, accommodation for 5,000 Vedic Pandits is already under construction, and work will soon start on facilities for a further 3,000.

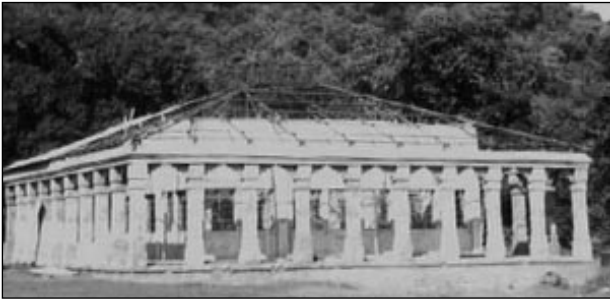

3,000 Vedic Pandits are already resident at the facility at the Brahmasthan of India. They practise Transcendental Meditation and Yogic Flying together every morning and evening, and Ati Rudrabhishek has been performed daily since Mahashivaratri, on 24 February.

In villages and towns throughout India, Maharishi's organisation is training groups of Vedic Pandits in the Transcendental Meditation and TM-Sidhi programme and in the performance of Rudrabhishek. Thousands of Vedic Pandits are available all over India to come to the various Vastu facilities now under construction.

In 1944, an historic 10-day Mahayaga for World Peace was conducted by the sacred river Jumna in India. This great event, the purpose of which was to help bring an end to World War II, was presided over by Maharishi's master, His Divinity Brahmananda Saraswati.

“In Britain, we have a very special responsibility to support the groups of 8,000 Vedic Pandits in every way we can. Britain continues to play a leading role in conflicts around the world, often being alongside the USA in policies of aggression and bombing. Every day in the news we are reminded of the urgent need for a more positive and coherent national consciousness, and the need for our country to have a more positive influence in the world. According to the principle ‘As you sow, so shall you reap,’ our donations to this project will help turn the tide of negativity and bring benefit to the individual donor, to Britain, and to the world. Here is our opportunity to make Britain truly worthy of being part of Maharishi’s Global Country of World Peace.”

—Dr Geoffrey Clements, Chairman of the Trustees,
Maharishi Foundation, UK

“Maharishi has given to this generation the opportunity to leave to future generations a legacy of peace perpetual, rather than a legacy of war and destruction. Only the most enlightened of the world understand this, and therefore they alone can act to save our generation, and create a future enjoying perpetual peace, prosperity and life in Bliss. If sufficient funds are raised through this appeal, it will ensure that Maharishi’s Vedic Technology of Peace is used to change the destiny of the whole world.”

—His Excellency Dr Bevan Morris, Minister of Enlightenment for
Maharishi’s Global Country of World Peace

THE TOTAL REQUIREMENT to complete construction and to support all three groups of 8,000 for two years is £34 million. Since £3 million has already been pledged to the fund at the time of going to press, this leaves a further £31 million to be raised for the first two years.

EVERYONE IS WARMLY INVITED to contribute as much as they can comfortably afford towards this project. Even with part of the amount raised, we will be moving towards an era of perpetual peace, or, as Maharishi describes it, a New World Order of Affluence and Peace for the whole human race.
